LOCATIONS: Council Districts 1, 4, 13, 14

**BRIEF DESCRIPTION:**

This project will convert existing high voltage series street lighting circuits to low voltage multiple circuits (approximately 414 street lights) by replacing conduit, wires and luminaires (no pole replacement). A portion of the conduit installation will be on streets where there is no sidewalk. The project is spread among five areas: Eagle Rock, Los Feliz, Silver Lake, Atwater Village and Highland Park. Financing for this project is from the Municipal Improvement Corporation of Los Angeles (MICLA).

This project will not result in an increase to existing Street Lighting Maintenance Assessments. A Proposition 218 ballot proceeding is not required.

THE CONTRACTOR'S LICENSE CLASSIFICATION REQUIRED FOR AWARD IS **"C-10" or "A"**.

Plans, specifications, and addenda are available **ONLY** from **www.LABAVN.org**. Registration on the website is required. Bidders must have previously downloaded plans or specifications for the project from the website in order to be notified of any Addenda. **PLANS AND SPECIFICATIONS will be available from the website on MONDAY, November 27, 2017, after 2:00pm.** Bidders are encouraged to download documents as soon as possible as the website has, in the past, been temporarily inaccessible due to unforeseen technical difficulties. The City will not be responsible for delays in preparing and submitting bids (including compliance with BIP requirements, should they be applicable) due to temporary LABAVN website inaccessibility. **For problems with accessing the website**, Email the ITA Division at: [ITA.BAVN@lacity.org](mailto:ITA.BAVN@lacity.org).
