## **UTILITARIAN LIGHTING SUPPLEMENTAL INFORMATION**

Where requested, a new utilitarian light may be installed if the location meets the following criteria:

1. There is an existing wooden utility pole at the requested location.
2. There is no other street light within 300 feet, or, the location is at an unlighted intersection with a wooden utility pole.
3. The utility pole must not be on private property. If the utility pole is on private property please call the Department of Water and Power at 1 800 DIAL DWP for information on the Outdoor Area Lighting Program.
4. The request is to light a public right-of-way (street, sidewalk or alley).

\*A new utilitarian light may require the signatures of the four closest property owners to the proposed new light.

If you have any questions regarding utilitarian lighting please call:-  
**Community Services division** of the Bureau of Street Lighting **(213) 847-1400**.

An alternative to Utilitarian Lighting is Electrolier Lighting which consists of lights on steel or concrete poles, of modern or ornamental style. Electrolier Lighting system is designed to provide consistent and uniform lighting for both the street and sidewalk.
